Allowable Subject Matter

1. Claims 1, 3-4 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the applicants have presented a persuasive argument, see page 3-4 of the response filed on 7/27/2005, that the cited prior art of record fails to disclose a method for forming damascene pattern comprises the step of filing the insides of the via holes to a prescribed thickness using non-conductive material by forming a non-conductive material layer on the insulating in which the via holes are formed and selectively removing the non-conductive material layer to expose the insulating layer and allow the non-conductive material to remain for a prescribed thickness, in combination with the rest of the limitations of claim 1 since fig. 4C of Harada, relied on in the rejection of claim 2 in the previous office action, specifically discloses the step of filing the internal/insides of the via hole 46 formed in the insulating layer 34 to a specific position using non-conductive material 48 without removing the non-conductive material layer 48 (col 6, lines 20-25; col 9, lines 4-6)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
